- **Book Description:** It's Isis Illiana Terra Firma's twelfth birthday. Last year her identical twin, Electra Morpheana Terra Firma, chose what they did on their birthday. So this year it's Isis' turn. She decides they'll view the just autopsied mummy at the Institute of Ancient Egyptian Stuff, the newest Smithsonian museums in Washington, DC. But the mummy sits up and warns Isis, the logical, analytical twin, that she must protect the Squrlon by leading a battle against the Vympyrym. He tells her she must find the Purple Staff of Death and uphold the Firma honor. Who are the Squrlon and the Vympyrym? When Isis realizes that no one else, including her sister, heard the mummy's message, she freaks. Is she going crazy? What is the Purple Staff of Death? When more "visions" occur, Isis's logical world becomes tumultuous and unexplainable. Confused, she discovers her world is full of secrets. When her sister and parents are kidnapped, Isis must find the courage to lead the rescue.
